## PROJECTS

### **Music Haven**

Dec 2023 - Jan 2024

<https://github.com/rushimarathe/music-website.git>

Music Haven is an interactive and dynamic website designed to provide users with a seamless experience in discovering, streaming, and sharing music. Built using HTML, CSS, JavaScript, and PHP, the website offers a rich user interface and robust functionality.

Key Features:

- User Authentication: Secure login and registration system for personalized user experience.
- Music Library: Extensive collection of songs categorized by genre, artist, and album.
- Search Functionality: Advanced search to find favorite tracks and artists quickly.
- Playlist Creation: Users can create and manage their own playlists.
- Streaming Player: Integrated music player with play, pause, skip, and volume control features.
- Responsive Design: Optimized for various devices including desktops, tablets, and smartphones.
- Technologies Used:

- HTML & CSS: For creating a visually appealing and responsive user interface.
- [removed] To handle client-side interactions and enhance user experience.
- PHP: For server-side processing,
